

European Union - New Zealand Trade Conference: Creating opportunities in markets

Ensure you're open for global business by joining leading European and New Zealand political and business commentators who will come together in February 2010 to discuss trade solutions that underpin our economic future. Your insights as a front-line business person are vital.

Hon Tim Groser, Minister of Trade, will open proceedings. Mr Mauro Petriccione, Director, Directorate-General for Trade of the European Commission will discuss the impact and learnings European FTA negotiations have provided to negotiators and European business. Crawford Falconer of Ministry of Foreign Affairs and Trade (MFAT) will share what New Zealand has learnt from its FTA negotiations.

You will also hear from Paul Ravlich, CEO of Siemens, Craig Richardson, MD of Jade Software and Ian Daniel, Director of NAVMAN. They will relate the journeys of their businesses and the strategies that have enabled them to develop a sustainable presence for long-term success in the European Union and New Zealand.

Your questions and views will be welcomed during a panel discussion focusing on practical and constructive strategies for future EU - NZ Trade.

As a joint initiative between the European Union Delegation to New Zealand, the Auckland Chamber of Commerce, the New Zealand Europe Business Council and the Ministry of Foreign Affairs and Trade, this function presents a rare and valuable opportunity for policy makers and business people to come together in search of pragmatic and proactive steps towards a positive trade future.

Be sure to add this important event to your calendar.
